

State Parks and Wildlife Conservation Trust Fund Act of 2010 Initiative Text

The People of the State of California find and declare all of the following:

(1) California's natural resources and wildlife must be preserved and protected for future generations.

(2) The California State Park System is essential to protecting these resources for the people of California. Along with the wildlife protection and conservation agencies of the state, the State Park System is responsible for preserving the state's unique wildlife, natural lands and ocean resources.

(3) Persistent underfunding of the State Park System and wildlife conservation has resulted in a backlog of more than a billion dollars in needed repairs and improvements, threatens the closure of parks throughout the state and the loss of protection for many of the state's most important natural and cultural resources, recreational opportunities and wildlife habitat.

(4) California's State Park System benefits all Californians by providing opportunities for recreation, nature education, preservation of cultural and historic landmarks, and by protecting natural resources that improve the state's air and water quality.

(5) Californians deserve a world-class State Park System that will preserve and protect the unique natural and cultural resources of the state for future generations.

(6) Rebuilding the State Park System and protecting the state's wildlife resources will grow California's economy and create jobs by drawing millions of tourists each year to contribute to the state's multibillion dollar tourism economy.

(7) It is the intent of the People in enacting this measure to protect the state's resources and wildlife by establishing a stable, reliable, and adequate funding source for the State Park System and for wildlife conservation, and to provide increased and equitable access to those resources for all Californians.

(8) It is further the intent of the People that the State Park System be operated and maintained at a level of excellence, allow increased access to state parks for all Californians while continuing to charge out of state visitors for the use of state parks, and protect the state's natural and cultural resources, recreational opportunities, and wildlife for future generations.

Chapter 1.21 is added to the Public Resources Code, to read:
